ABN AMRO licenses Surecomp's allNETT trade finance service

Thursday 14 October 2010 | 08:44 AM CET

ABN AMRO has awarded a license to global trade services Surecomp for its allNETT web-based trade finance service.

allNETT is a Java J2EE web-based product designed to initiate trade finance transactions and extract inquiries and reports. The application is set to speed up the corporate processing of letters of credit (L/Cs) by eliminating all manual activities previously associated with such transactions.

ABN AMRO has licensed allNETT V4.0 which includes a Reporting Module, which can be used by both the bank and their corporate customers, an interface to the Global Filtering System (Fircosoft) as well as guarantee functionality.
