

ABN Amro turns to Surecomp

Tech firm Surecomp has signed a deal with ABN Amro to install its web-based trade finance platform.

The front-end solution for banks and corporates, called allNett, is designed to make corporate processing of letters of credit more efficient by automating processes and eliminating all manual activities.

"With allNett, ABN Amro will be able to react quickly to the evolving requirements of the fast-paced corporate world by offering an attractive, easy to learn and cost-saving solution," Surecomp says in a statement.

Joel Koschitzky, chairman of Surecomp, adds: "In the banking industry, innovation is becoming increasingly critical for effectively responding to the needs of corporate customers in multiple locations in real time. allNett joins the arsenal of innovative solutions at the disposal of ABN Amro as it seeks to enhance its recognised brand name and enable its corporate customers to stake leadership positions in their respective markets."
