Banco Internacional establishes web-based corporate access point

[Guatemala](#), Tuesday, 15 March 2011

Banco Internacional Guatemala implements Surecomp's allNETT® trade **finance solution**

Surecomp®, one of the leading providers of global trade solutions for financial institutions and corporations, announced today that Banco Internacional SA Guatemala, a member of the IF Group, has commenced production of allNETT®, Surecomp's web-based trade finance solution.

allNETT is a Java J2EE multi-customer, multi-entity solution for both initiating trade finance transactions and extracting wide-ranging inquiries and reports.

Established in 1976, Banco Internacional Guatemala is a member of the Spanish IF Group (Grupo Fierro), which also includes Banco Exterior in Venezuela, Banco Interamericano de Finanzas (BIF) in Peru, Banco Internacional in Ecuador, International Finance Bank (IFB) in the United States, and EBNA Bank in Curacao. With more than \$8 billion in total assets, 4,600 professionals and almost 300 branches, the IF Banking Group maintains operations in Latin America and the United States.

Banco Internacional also participates in the TFFP (Trade Finance Facilitation Program) of the Inter-American Development Bank

"We recognized early last year that a web-based corporate access point was the missing link we needed to complement our leading electronic banking solution and to provide an integrated environment in all stages of the process for our corporate clients," said Mr. Francisco Naranjo Martínez, General Manager, Banco Internacional Guatemala. "We view allNETT as a critical solution in our arsenal as we move ahead and consolidate our leading position as Guatemala's top trade finance bank."
