Surecomp Doka secures Swift certified application status

18 hours ago | 261 views | 0

Source: Surecomp

Surecomp, a leading provider of global trade solutions for banks and corporations, announced today that DOKA 5, its configurable bank back-office solution for documentary trade finance, has been

awarded the Swift Certified Application - Trade Finance label for a 13th consecutive year.

This year, to add further value to the globally recognized SWIFT accreditation label, the certification program has been rebranded as SWIFT Certified Applications. This strengthening of the unique and highly valued accreditation is in line with SWIFT's aim of certifying selected third-party applications to ensure that they meet well-defined requirements around SWIFT standards, messaging and connectivity.

"We are proud that DOKA 5 has received SWIFT accreditation 13 years running. This achievement points to the ongoing commitment and professionalism of our global Surecomp team," said Joel Koschitzky, Surecomp Chairman. "With its built-in tool-kit options, DOKA 5 is a highly flexible trade finance back-office solution that enables banks to easily automate their trade finance transactions and improve operational efficiency."
