Surecomp Excelled in Providing Innovative Answers to Trade Finance Industry

SHARE

Published on Feb 11, 2011

Surecomp has won Financial-i magazine's annual Leaders in Innovation Award in the Trade Finance Software Solution category. This marks the third consecutive year that Surecomp has received this honor.

Financial-i's Leaders in Innovation Award identifies global financial hardware/software vendors and transaction banks that have excelled in the last 12 months in providing innovative answers to common industry problems. According to Financial-i, a leading London-based magazine for the wholesale financial services industry, winning companies must supply creative and easy-to-use solutions to their customers.

Joel Koschitzky, Surecomp Chairman:

"One of the cornerstones of our philosophy is to consistently deliver innovative solutions to our clients. In this light, it is a tremendous honor to receive the Financial-i Leaders in Innovation Award for the third year running. Surecomp's continued recognition as the leader in global trade finance solutions reflects our commitment to cultivating dynamic relationships with clients – relationships that help us identify their evolving business needs. This allows us to provide relevant solutions that help our clients save time, improve performance and increase revenues."

Financial-i editor Anita Hawser:

"Our awards recognize those companies demonstrating an ongoing commitment and investment in innovation that positively impacts end users. We are looking for business solutions that lead the way in terms of helping customers easily solve everyday business issues." *

Product name: Surecomp
Product type: Compliance and Regulations | Connectivity | Data | MicroFinance | Reconciliation | Reporting | Risk Management | Trade Finance | Trading Systems
