Surecomp earns SwiftReady Application label

Surecomp, a leading provider of global trade solutions for financial institutions and corporations, announced today that Imex, its flagship trade finance banking system, has received SwiftReady Application label status for the 13th consecutive year.

371 views 0 comments

The SWIFTReady Application certification program allows solution providers such as Surecomp to verify the SWIFT-compliance of their financial applications against SWIFT messaging services, standards and connectivity. By once again meeting precise SWIFT-specific criteria, IMEX has reconfirmed its ability to provide automation in a SWIFT environment. Reevaluation on a yearly basis ensures that IMEX stays fully up-to-date with the latest market needs, standards and developments.

"We are proud that our state-of-the-art IMEX solution has been awarded SWIFTReady Application status for 13 years running," said Joel Koschitzky, Surecomp Chairman. "This important recognition, following other industry awards received by our company, reaffirms the leadership position of both IMEX and Surecomp at the forefront of industry developments."
