Surecomp gets Guatemalan green light

Last Updated March 21, 2011

Guatemala's Banco Internacional has selected technology company Surecomp's Allnett trade finance front-end system for corporate customers.

The Allnett web-based solution automates the corporate processing of letters of credit and other trade finance documents.

"We recognised early last year that a web-based corporate access point was the missing link we needed to complement our leading electronic banking solution and to provide an integrated environment in all stages of the process for our corporate clients," says Francisco Martinez, general manager at Banco Internacional Guatemala.

Banco Internacional, a member of a group of banks known as the Spanish IF Group which includes Venezuela's Banco Exterior and Peru's BIF, selected Surecomp because of the tech firm's previous dealings with the IF Group.

"Well known to us as a trusted supplier of trade finance solutions to other banks in the IF Group, Surecomp demonstrated and proved to us the uniqueness, power and flexibility of Allnett," Martinez adds.

"Surecomp demonstrated and proved to us the uniqueness, power and flexibility of Allnett."
