Press Release

Surecomp's IMEX Earns SWIFTRReady Application Label for 12th Consecutive Year

Hoboken, New Jersey - 2 August 2010

Surecomp, a leading provider of global trade solutions for the financial services community, announced today that IMEX, its flagship trade finance banking system, has been awarded the prestigious SWIFTRReady Application label status for the 12th consecutive year. The SWIFTRReady Application certification program allows solution providers such as Surecomp to verify the SWIFT-compliance of their financial applications.

By meeting clear and precise SWIFT-specific criteria in earning 2010 SWIFTRReady Application status, IMEX has reconfirmed its ability to provide automation in a SWIFT environment. Reevaluation on a yearly basis ensures that IMEX stays fully up-to-date with the latest market standards and developments.

"This recognition by SWIFT – for a 12th successive year – reconfirms the dedication and talent of all our employees around the world, and the cutting-edge nature of our IMEX solution," remarked Joel Koschitzky, Surecomp Chairman. "At Surecomp, we have a tradition of taking full ownership and responsibility for our solutions by continuously adding value to them. Without doubt, this is reflected in the exceptional quality and stability of our solutions, in our successful partnerships with our clients, and in the international industry recognition received by Surecomp year in and year out."
