Surecomp has announced that its IMEX Trade Finance solution has been deployed by Romania's UniCredit Tiriac Bank (UTB).

Cristina Bunescu, head of trade finance at UTB comments: "By adapting Surecomp's solutions to our specific needs, we were able to reduce project risk and implementation time, enabling us to successfully address our corporate clients' needs for automated letters of credit, collections and guarantees."

Bank Pekao (Pekao), another Surecomp client is hosting Tiriac's infrastructure in Warsaw as part of a Multi-Entity IMEX deployment. Sylwester Stasiak, managing director of transaction banking at Pekao adds. "After operating IMEX successfully for many years, we knew that it could also meet the needs of UniCredit Tiriac Bank.

Surecomp supports installations in over 80 countries and has an integrated portfolio of trade finance, supply chain finance and treasury confirmation matching solutions.

IMEX, Surecomp's leading back-office trade finance system is designed for global, regional and local banks with high volumes of trade finance activity. The system supports issued and received letters of credit (LCs), standby LCs, clean and documentary collections, clean payments, guarantees, reimbursements, syndications and participations. IMEX is available on UNIX and mainframe platforms.

Raphael Barisaac, vice president, Europe, and global head, trade finance and supply chain finance at Surecomp says of the agreement: "We are appreciative that yet another innovative subsidiary within UniCredit has turned to Surecomp and deployed

our state-of-the-art trade finance solutions.”

UTB went live with the IMEX system in early October 2013.
