Surecomp launches mobile@allNETT application

Surecomp, a provider of global trade solutions for the financial services community, announced today the release of mobile@allNETT®, an advanced application for managing trade finance transactions on smart mobile devices.

290 views 0 comments

An optional module of *allNETT*® (V4.0), *mobile@allNETT* enables users of Surecomp's Web-based trade finance front-end system to manage trade finance transactions while on the go.

"With the release of *mobile@allNETT* and *allNETT* V4.0, corporate trade finance has entered a new era of enhanced convenience and efficiency," said Surecomp Chairman Joel Koschitzky. "By harnessing the power and flexibility of smart mobile devices, *mobile@allNETT* empowers corporate users to manage their current trade finance transactions around the clock and in real time."

mobile@allNETT enables users to access, track and manage varied trade finance transactions including letters of credit, guarantees and collections. By delivering relevant marketing content directly to users' mobile devices, the application helps banks strengthen their brand and improve customer satisfaction. *mobile@allNETT* currently operates on iPod Touch 2G/3G/4G and iPhone 3G/3GS/4G devices [with iOS 4.0 and up].
