

RIVO™ – our collaborative trade finance platform – is a centralized digital hub through which any trade finance instrument can be managed. This web-based portal provides open API access to every trade participant for a completely streamlined and sustainable transaction process.

Collaboration

Real-time access to trade finance ecosystem

Available on demand,
anytime, anywhere to anyone...
just imagine.

A web-based platform accessed via an intuitive, user-friendly interface, RIVO™ is fast and easy to navigate. The solution is designed to bring together importers, exporters, insurers, agencies, freight forwarders, and banks efficiently collaborate on finalizing the details of a trade finance transaction in the most timely way.

By using the platform to execute trade finance requests, users can benefit from corresponding with every party through a single channel which saves time, improves efficiency and ultimately drives growth.
