**APIsure™**

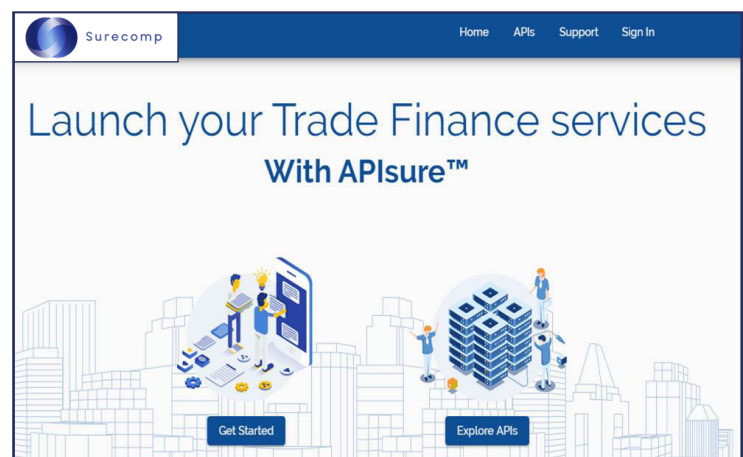

# Setting the new trade finance open banking standard

**Our fully flexible, open API platform for paperless, cross-industry collaboration and rapid deployment of trade finance solutions and services.**

APIsure™ enables organizations to exchange data, functions and applications in real-time, setting the new open API standard across all our proprietary trade finance solutions.

**Unlocking real-time connectivity for banks and corporates across the globe, APIsure™ provides a secure and agile framework on which to digitize and transform your trade finance operations.**

The cloud-based platform comes with built-in integration to best-in-class fintech solutions across the trade finance ecosystem for productivity, risk management, automation, KYC and more.

## Key Benefits

Streamline communication with real-time connectivity

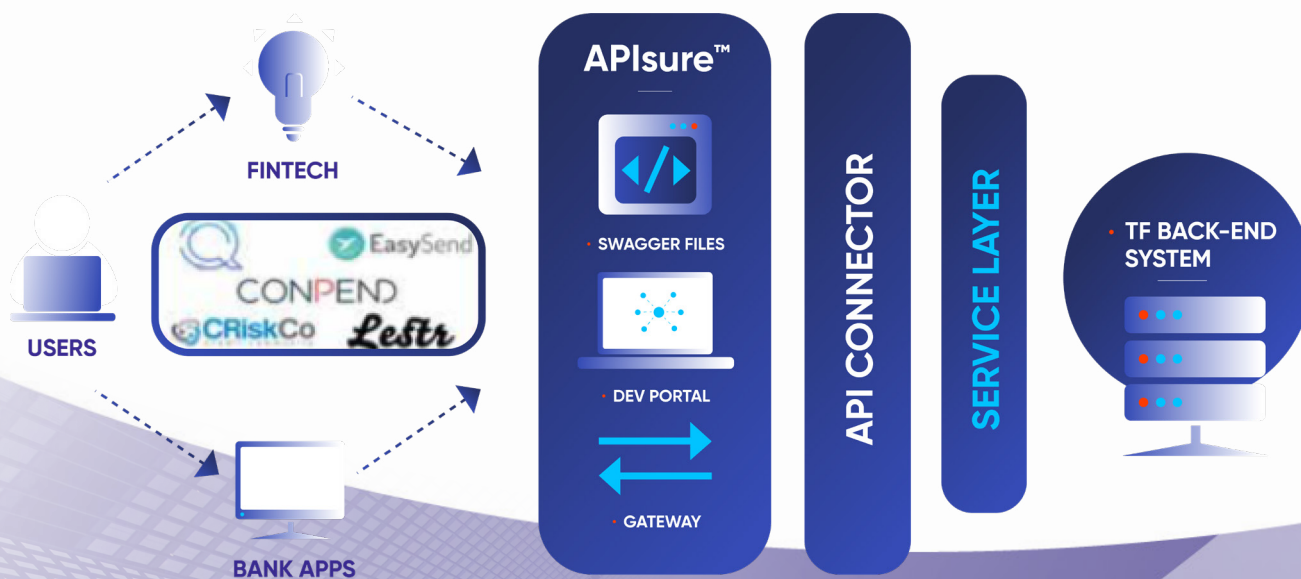

Reduce risk with contactless, paperless processing

Improve business agility & efficiency of trade finance services

Enhance customer service and satisfaction

Reduce development and integration costs

- **Elevate competitive edge with innovative state-of-the-art digitized operations**

Setting the new global standard in trade finance digitization.
