

allNETT™

Front-office trade finance processing for banks' corporate clients

Our web based front-office solution is designed for use by a banks' corporate customers and their subsidiaries. Without the need for on-premise installation, allNETT™ integrates with any back-office or can be used as a stand alone application for fully digitized corporate-to-bank communication to significantly increase revenue and decrease costs.

With user-friendly access via a standard web browser, corporates can effortlessly initiate and manage a full range of trade finance transactions in real-time. An intuitive graphical user interface provides status updates to support the customer-to-bank transaction life-cycle. Rapidly deployed by leading banks of every size across the world, allNETT™ improves competitive edge, customer loyalty and bottom-line profitability. Offering flexible deployment, it can be hosted on premise, via a private or public cloud, or a combination.
