

Trade Finance-as-a-Service

Providing a cost-effective and holistic, digital experience across trade finance operations, Trade Finance-as-a Service (TFaaS) allows parties to apply, track, finance and collaborate to facilitate global trade and ultimately drive revenue.

Easy to onboard and highly configurable, it is offered as a flexible subscription-based pricing model to promote improved business agility for banks and corporates of all size and budget.

The fully integrated and scalable cloud-based suite supports the full portfolio of trade finance instruments.

Across back-office trade finance management and processing, front-office for banks' corporate clients, open API connectivity and access to our open API-standard fintech

Marketplace – TFaaS adheres to the highest security, performance, data segregation, storage and messaging standards.

Key Benefits

-  Transition gradually to the cloud
